Anthony@AALNJ.COM

Contractor # 13VH02283900

Please check the services you are interested in so we can give you an accurate estimate.

- Drive way plowing 2” to 6” (base price) (See conditions below for more then 6”)
- Garage doors cleared. Mail box cleared
- Front walk and stoop shoveled.
- Side walk and stoop shoveled.
- Rear walk and stoop shoveled.
- City sidewalk shoveled.
- Use salt on driveway and calcium on walkway after plowing
- 2”or less service. Will be billed at ¾ rate.**

All above items are done as drive is being plowed.

1. Any storm of **12”** or less will be plowed **one time** within the next **10 to 12** hours of the end of the storm unless **you let us know** otherwise.
2. Plowing price for a **6-9** inches storm cleaned in one visit will be **1.5** times the base price, for a 9 to 12 inches will be **2** times base price.
3. We use **rotating** starting points, this way no one client is first or last all the time.
4. Please leave your **outside lights** on to make it safe for our help while they work.
5. If precipitation falls as **ice/sleet** there may be an additional charge because of the extra time required to remove it.
6. There is a **minimum** charge per season that is equal to **3 visits** at base price. This means if there are less then 3 snow events in the season (This has not happened in the last 20 years) you still will be charged for 3. Why? We have spent thousands of dollars in snow equipment, supplies and labor that we must have ready in order to service your property when it snows.
